

# **Technology Stack**

## **Tools Used**

- **Tableau Desktop:** Used to create dashboards and visualizations
- **Tableau Public:** Used to publish dashboards and stories online
- **GitHub:** Used for project documentation and submission
- **CSV Files:** Used as structured data sources

## **Technologies Used**

- Data Visualization
- Dashboard Design
- Data Cleaning and Preparation
- Storytelling with Data

## **Purpose of Technology Stack**

The selected tools and technologies enable efficient analysis and visualization of EV data, helping convert raw datasets into interactive dashboards for easy understanding.

## **Advantages**

- Interactive visual analysis
- Easy sharing through online platforms
- Improved data understanding
- Professional presentation of insights
